**FOR IMMEDIATE RELEASE**

### **BCD Software and Midrange Dynamics Announce Strategic Partnership**

**Midrange Dynamics' flagship change management tool, MDCMS, now integrates with BCD's WebSmart PHP web application development solution.**

**Chicago, IL – April 29, 2016 – BCD Software LLC.**, a Quadrant Software company and an IBM i industry leader for 40 years, has announced a strategic partnership with Midrange Dynamics, an IBM i change management solution provider. This alliance will give IBM i shops enterprise-level change management for applications developed with BCD's rapid web application development solution, WebSmart PHP.

"Change management is a key component of any mission-critical web application development project. We chose to partner with Midrange Dynamics because we were impressed with the quality of MDCMS and how they were able to seamlessly integrate the solution with WebSmart," says Steve Woodard, CEO of the Quadrant Group. "The new integration gives IBM i shops clean, automated, and fully audited application deployments. This is essential because quickly deploying high quality applications helps companies maximize the value of their IBM i."

"We're impressed with the quality and depth of BCD's solutions, their technical expertise, and their dedication to the platform. We look forward to working together to help IBM i shops deliver the leading edge functionality that their businesses demand quickly and reliably," says Michael Morgan, Founder and Managing Partner of Midrange Dynamics.

#### **MDCMS-WebSmart PHP Integration**

MDCMS integrates with WebSmart PHP to provide everything you need to modify, install, and distribute application changes across multiple IBM i and multiplatform environments. It's a great fit for shops that want to upgrade to a change management solution that can manage today's development needs and new technologies/initiatives as seamlessly as with native legacy apps. Affordable, easy-to-implement MDCMS tracks and reports on the entire software development process, reduces time and risk, and helps organizations meet auditing requirements.

#### **About BCD and Quadrant Software**

BCD is a Quadrant Software company and one of the most successful software organizations in the IBM i marketplace. BCD and Quadrant have a combined 60 years in helping customers maximize their investment in IBM i with their web and mobile development, green screen modernization, business intelligence and document modernization tools.
