

Reaching your IBM i modernization goals is a lot *easier* with BCD

Every organization's modernization needs are different. With BCD's integrated ClearPath Modernization Suite, you build your own custom suite by selecting only the components you need. Join the thousands who have made the decision to modernize with BCD and start improving your IBM i applications and business processes faster than you thought possible.

Only BCD has the tools that let you build such a complete modernization suite

Why ClearPath?

Custom, Integrated Suite

Build your own custom suite by selecting the modernization tools you need. Start with one, a couple of tools or the complete suite. When you select tools that communicate with one another, and deal with one vendor who assures seamless support, you're making a smart choice.

Keep Your IBM i Relevant

Prove to management, end users, partners and customers that your IBM i is a modern server. Deliver rich web applications, give your IBM i a Web GUI, provide real-time web reports, and make reports and documents easily accessible in the formats people want.

Strategic Solutions

ClearPath tools help you cut costs with electronic report distribution, and improve decision making with real-time web reports. They also help you increase revenue and improve customer service with web applications, and get more value from your green screens by web enabling them.

Modernize with Confidence

BCD is an industry leader with over 35 years of experience in the IBM i and midrange marketplace and has received 40+ industry awards. Our support team helps you succeed by providing unlimited phone and email support, and our services team is available to create custom web applications for you.

Build your own customized modernization suite

Presto

Green Screen to Web Modernization

Presto™ instantly transforms all of your green screens (RPG and COBOL programs, menus, third party and system screens) to modern web pages that are easier to use and access. It also gives you the flexibility to further enhance them with new functionality.

- No source code changes required.
- Visual editor to add images, charts, date-pickers, drop down boxes and more.
- Full access to the HTML, CSS and JavaScript for the most flexibility.
- Runs in a browser. No ActiveX, Windows Server or WebSphere required.

Affordable pricing - Choose base or unlimited users.

WebSmart

Web Application Development

WebSmart® is the fastest way for RPG and other programmers to create PHP or RPG web applications for any business need. Use the PHP edition for IBM i and multi-platform open source deployment or the ILE edition for an RPG and IBM i centric solution.

- Program templates create the base HTML, CSS, JS and PHP or RPG for you.
- DB2, MySQL, MS SQL & Oracle templates.
- Call backend RPG or COBOL programs.
- HTML and code editing tools including interactive debugger.
- Supports AJAX, jQuery, HTML5 & CSS3.
- Develop mobile web apps & Web services.

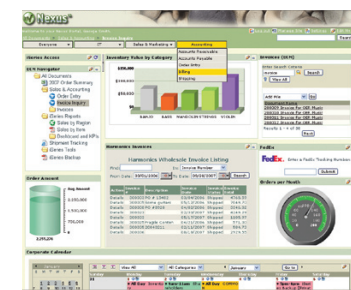

WebSmart leads the marketplace with 14 industry awards!

Secure Web Portal

Nexus™ is a license FREE (only maintenance is billed) web portal that offers a secure, single point of access to your enterprise information, making it easier to access. It requires no HTML or programming knowledge and includes features to manage users so they only see what they are authorized to access.

Nexus provides menus and authentication for controlled and secure access to:

- Presto web-enabled green screens
- WebSmart and other web apps & pages
- Executive dashboards and Clover web reports
- Document management including Catapult distributed files
- Calendars and To Do lists
- Spool file viewer with PDF conversion

Nexus integrates with all ClearPath tools.

Nexus Portal

Web-based Reports and Queries

Clover™ Query makes it easy for your non-technical users and programmers to rapidly create real-time IBM i web-based reports and queries. Your organization will make better decisions by using Clover to create reports to track sales, inventory and other key metrics.

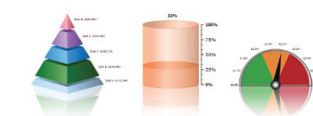

- DB2, MySQL and MS SQL report templates with level breaks and totals.
- Represent data visually with charts (bar, pie, gauges, etc.) and dashboards.
- Extract data to Excel or PDF.
- Import Query/400 queries.
- Advanced features including dynamic library lists.

The Clover license includes unlimited users.

Clover

SmartCharts™

Charts and Graphs

Get FREE pie, bar, gauges & other KPIs when you purchase WebSmart, Presto, Nexus or Clover.

Automated Report Distribution

Catapult™ is a report and document distribution tool that reliably and automatically delivers spool files and PC files to people in the format they want. Sending reports electronically reduces printing and mailing costs, improves billing processes and eliminates re-keying.

- Convert spool files to PDF, RTF, TXT or Excel spreadsheets.
- Deliver reports via email, print, fax and network drives.
- Split and parse reports and add form overlays.
- Auto-file documents to Nexus for secure web access.

Catapult has won eight industry awards!

Catapult

Web App Development

“ I was able to put together an entire online ordering process by myself using WebSmart. It took about 1/2 the time that it took a web development firm with a staff of about five programmers doing a similar project.
— **Carolyn Struck,**
Quadion Corporation

Nexus Portal is the perfect product to manage the secure access of web documents and programs. We have several thousands of documents with over a thousand users accessing daily documents and running WebSmart programs without any issues.
— **Thierry Gosset,**
Canadian Kawasaki

IBM i 5250 Web GUI

I love the way our IBM i screens were all web enabled with Presto. It required no manual intervention to modernize our screens! We are now productively using BCD's Presto, Nexus and Catapult modernization tools.
— **Chris Keebler,**
Gladwin Paint Company

I put Presto on our IBM i and within a few minutes everything was web enabled. It works in any browser and my users don't have to install anything on their PC or Mac. Function keys are translated to buttons so my Mac users can finally use the IBM i without all the hassle.
— **David Shoaf,**
Alpine School District

Business Intelligence

In about an hour I was creating charts and graphs using my own data. That's pretty much what sold me. I realized right off the bat that Clover and Nexus were very user friendly and BCD's support team was second to none.
— **Michael Ellis,**
Key City Furniture

Nexus and Catapult have made dispersing reports to our clients fast, efficient, and automatic. It's basically a 'set and forget' solution that allows our clients easy access to their reports 24/7. They're great products with an extremely helpful and knowledgeable staff to back them.
— **Wayne Hartmann,**
Automated Installment Systems”
