

Web portal for secure access to enterprise information

Nexus Portal is an IBM i hosted web portal solution that gives employees, vendors and/or customers secure, organized access to enterprise information from their browser. It increases end user and IT staff productivity and improves information sharing by

providing a centralized framework for users to access multiple sources of information. Nexus makes it easy for you to ensure users only access the web apps, web pages, documents, dashboards and tools that they are authorized to. It also simplifies site creation, design and administration.

Security
Restrict access to content by user or groups.

Content Management
Store, share and create documents.

Dashboards
Real-time graphs and KPIs over IBM i data.

WYSIWYG Design
Create pages without coding HTML.

Menus
Make content easy to find with organized menus.

Free User Tools
Spool file viewer, 5250 emulator, calendars...

Why Nexus Portal?

Easy Access

Use Nexus as a web-desktop to access enterprise information anytime, from anywhere, on any PC or laptop. The zero footprint browser interface is quick to load and does not require any additional software to run.

Organize Information

Centralize and organize data by storing it in Nexus. Content is organized in menus and folders so users can quickly find information. You can share web applications, reports, policies, procedures and other information with ease.

Rapid Site Creation

Design and secure Nexus sites without needing to code HTML or do any programming. Within minutes, you'll be ready to design pages, add content and manage users. You can also set up unlimited Nexus portals with a single license.

Seamless Integration

Nexus is the centerpiece of BCD's ClearPath Modernization Suite. It provides organized and secure access to WebSmart web applications, Clover Query web reports, Presto web-enabled green screens and Catapult distributed reports.

Nexus features for portal creation and administration

WYSIWYG Site Design

Create multiple intranet and extranet portals with no HTML knowledge required.

- Design pages with a drag-and-drop editor
- Create drop down menus and menu trees
- Select one of the many customizable skins
- Create web page content with a rich text editor
- Allow users to customize pages and add content

User and Site Management

Manage users, groups and site options using a user-friendly web interface.

- Enroll users as IBM i, Nexus or Active Directory profiles
- Organize users into groups or subgroups
- Set user design, editing and other options
- Control login, password and other site settings

Security

Secure content by setting up different levels of security with no programming required.

- Authenticate IBM i, Active Directory or Nexus user profiles
- Give users or groups read, write or admin authority to content
- Includes a custom APACHE security module
- Hosted on IBM i for maximum reliability and security

Enterprise Content Management (ECM)

Make a wide variety of content easy to access, manage, secure and share using the Nexus ECM.

- Store, manage, email, print and share documents
- Upload PDF, Word, Excel, JPG and other files
- Create web pages and use Nexus as a CMS
- Add links to any web pages or web applications
- Auto-file IBM i spool files as PDFs using Catapult

Key Nexus ECM components:

- 1 **Viewer:** View, email, print or download documents.
- 2 **Navigator:** Organize content into folders or menu trees.
- 3 **Editor:** Add, edit or delete content.
- 4 **Search:** Quickly find information.

Portlets included with Nexus

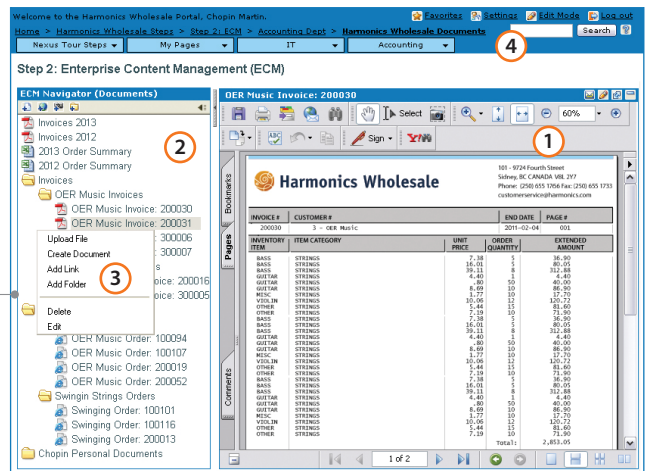

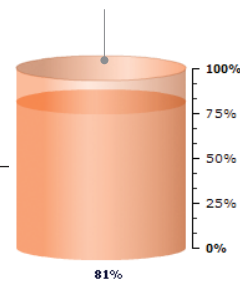

You get these free portlets (web applications) with Nexus to add to your pages:

Productivity Tools

- Calendars
- To-do lists
- Add Google Gadgets for stock quotes, weather, UPS tracking *and more*

IBM i Tools

- Web-accessible 5250 emulator
- Spool file viewer with conversion to PDF
- SmartCharts to create dashboards with graphs and KPIs over DB2 data

Modernize further with BCD's ClearPath Suite

You can optionally combine Nexus with BCD's other award winning IBM i modernization tools to build your own customized and integrated solution. Start with one, a couple of tools, or BCD's complete modernization suite to meet your exact needs. When you select tools that communicate together, and deal with one vendor who assures seamless support, you're making a smart choice.

Charts for your Portal

SmartCharts™ are charts and graphs that are included with Nexus, WebSmart, Clover and Presto at no additional cost. They provide modern graphical views of real-time data.

The Centerpiece of the Modernization Suite

Nexus provides security and menus to all BCD ClearPath Modernization Suite components:

- WebSmart PHP and RPG web applications
- Presto web-enabled 5250 green screens
- Clover Query web reports and dashboards
- Catapult distributed documents and reports

Nexus and Catapult have made dispersing reports to our clients fast, efficient, and automatic. Basically a 'set and forget' solution, they allow our clients easy access to their reports 24/7. They're great products with an extremely helpful and knowledgeable staff to back them."

— Wayne Hartmann, Automated Installment Systems

See what your peers are saying about Nexus

Easy Site Creation

“ Nexus has helped us create a professional Web portal for our range of companies. It was easy to create, has excellent features and the support is fantastic. We would recommend Nexus to anyone who wants to create a site quickly and professionally.
— **Julie Headford,**
Inenco Pty Ltd.

With BCD's Nexus Portal product, portals are easily created and offer several levels of security, graphics and fast access to your information on the IBM i via a web browser.
— **Mary Rooney,**
DCS, Inc.

Secure Access

We use Nexus to deliver Clover reports. We like the IBM i integration for user id and password and how easy it is to create folders and secure them. Our president has stopped receiving green bar reports and accesses our Nexus Portal for all his financial reports and graphs.
— **Mauricio Vejar,**
Country Villa Health Services

Where previously users had to access multiple systems, now they have only one site to visit. Nexus has the added advantage of using the security of the IBM i in addition to the security it provides.
— **Ahmed Rifkhan,**
NSCSA

Simple Site Maintenance

We have several thousands of documents with over a thousand users accessing daily documents and running WebSmart programs without any issues. We also have users, with a minimum of web development knowledge, who maintain portals created with Nexus through its editing tools.
— **Thierry Gosset,**
Canadian Kawasaki

With Nexus we now have a secure single point of entry for our dealers to access information including our Presto web-enabled green screens. The site can also easily be customized for each dealer group. ”
— **Paul Warnes,**
Bridgestone Australia LTD
