

Nexus Portal offers tight Security, Application Frameworks, Web Menus, Executive Dashboards, ECM *and more*

It's License **FREE**

Web Portals have become a necessary business tool for securing, accessing and organizing Enterprise information. Award winning Nexus Portal offers secured, single point Web access to your System i business. You'll have *controlled, secured access to Applications, Documents, Dashboards, User Tools...* and it's license FREE ! Nexus lets you build **unlimited** portals for **unlimited** end-users for just the cost of annual maintenance. Create portals for your Employees, Partners and Clients with no coding required. **Try it on a Free Trial Basis.**

Tight Security
System i-based security for total protection. Users will only see their authorized objects including **dynamic web menus.**

Enterprise Content Management (ECM)
Manage, store & publish documents with Nexus ECM. Auto-distribute spool files to the ECM as PDFs with Catapult.

Executive Dashboards
Create real-time Flash graphs and KPIs over System i data with BCD's Free SmartCharts tool.

Web-Based Portal Design & Administration
Create portal pages and portlets using WYSIWYG tools. Manage all Admin tasks via web interfaces.

Controlled Access to Enterprise Information
Organized access within a secure framework to web apps (WebSmart or others), documents, dashboards and more.

Powerful User Tools
Access System i spool files, create PDFs, To Do lists, 5250 emulation, Instant Messaging...
