

Experience the Art of **WebSmart™** with your iSeries

Wenger Corporation
B-to-B Shopping Cart

Your end users will appreciate the advanced web apps you create with WebSmart. Upper management will smile when they see how affordable and effective it is. You will be very pleased with how fast you master WebSmart -- the technology iSeries people truly understand to create business solutions.

Universal Music
Global Royalty system

WebSmart is the easiest and most comprehensive iSeries-Web development tool. Create robust Inquiries, Maintenance, Order/Entry, Shopping Carts, and complete web sites serving dynamic content. WebSmart Supports SOA, Web Services, XML, email... and more. It's so versatile it generates ILE-RPG CGI or Java.

MCCI Police
Reporting System

Some tools are so complicated vendors won't let you try them. WebSmart is so easy you'll prove it by creating apps day one. Over 4,000 organizations prefer BCD development tools with 1,000+ selecting WebSmart as their tool of choice. Modernize your existing apps or build mission critical ones -- our excellent support will ensure your success.
