

Put an end to snail mail by using Catapult

Deliver IBM i documents in seconds instead of days

Sending invoices, purchase orders and other documents to your clients by mail unnecessarily increases delivery time and costs. Printing, collating, filing and retrieving reports wastes even more time and money.

Use Catapult to stamp out document and report distribution inefficiencies.

- » Automate spool file and document distribution
- » Convert spool files to popular PC file formats
- » Email, fax, print, index and save reports
- » Route reports using distribution groups
- » Split reports into individual segments
- » Add graphical form overlays
- » Optional Free license of Nexus Portal for 24/7, secure web-based document access

Catapult is paying big dividends for our company by **reducing overhead, saving printing and postage costs**, and providing a better means for archiving reports.
