

# Mine IBM i Report Data *with* EZ-Pickin's

Then export those valuable nuggets to Excel Spreadsheets

**Input Sources**  
Spool files, PDF, documents, database files, sales, financial and other reports.

The screenshot shows the EZ-Pickin's application interface. It includes a main report window with a table of data, a summary window, and a bar chart. The table data is as follows:

Customer Name	State	Year	Prod. Code	Description
The Rock Studio	ON	2011	122	Signal compr
The Rock Studio	ON	2011	124	Combination
The Rock Studio	ON	2010	415	All modules II
The Rock Studio	ON	2009	119	An excellent
The Rock Studio	ON	2008	121	Ring modulat

The bar chart shows 'Order Totals by Product Category and Year' with categories AMPS, BANDO, BASS, and GUITAR, and years 2008, 2009, 2010, and 2011. The Y-axis represents 'Amount' from 0.00 to 180,000.00.

**Analyze Data**  
Extract report data & transform it into live views. Sort, filter and perform your own analysis.

**Customized Views**  
Create custom views & summaries of reports with totals, calculated fields and more.

**Chart Data**  
Create colorful & informative charts and graphs based on report data.

**Export Data to Windows Apps**  
Export extracted data into Excel, PDF, Access, MS-Word and more.

EZ-Pickin's empowers financial, sales and other staff to dig out nuggets of data buried in reports & turn it into valuable live views. *No programming skills are needed.*

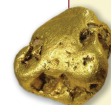

## EZ-Pickin's Benefits:

- ▶ **Save time:** Find critical information in reports without re-keying data into spreadsheets.
- ▶ **Reduce costs:** Cut printing costs and eliminate requests for different views of existing reports.
- ▶ **Improve decision making:** Users get timely and accurate data in the format they want.
- ▶ **Empower users:** They can access, extract, view & export the data they need without help from IT.

## Deliver Spool Files as Excel

EZ-Pickin's integrates with BCD's spool file distribution tools, Catapult & Spool-Explorer, to allow users to extract, mine, convert and distribute data from spool files as popular PC file formats (*PDF, XLS & more*). Catapult automates the process whereas Spool-Explorer is for ad-hoc requirements by end users.

Get a **FREE** unlimited user copy of Spool-Explorer when you purchase 5 or more stand-alone or 3 or more concurrent seats of EZ-Pickin's.
